

Tech Strategy & Mentorship Advisory

Helping Startups & CTOs Build Stronger Systems & Teams

About Me

With **25+ years of experience** in **distributed systems, cloud architecture, and scaling engineering teams**, I help **startups, CTOs, and investors** navigate complex technology decisions and leadership challenges. My focus is not just on **scalable technology**, but also on **developing engineering leaders** who can drive sustainable growth.

Services Overview

1 Technology Strategy & Architecture Reviews

- Assessing system scalability, performance, and efficiency
- Reviewing cloud infrastructure & cost optimization
- Advising on technical debt management & modernization strategies
- Aligning tech roadmap with business objectives

Who It's For: Founders, CTOs, and technical leadership teams looking to ensure their tech foundations are built for scale.

2 CTO & Engineering Leadership Mentorship

- Coaching CTOs and engineering leaders on strategic decision-making
- Helping scale engineering teams & improve organizational structure
- Establishing a mentorship flywheel to develop strong technical leaders
- Advising on hiring, culture, and leadership best practices

Who It's For: Startup CTOs, tech leads, and engineering managers looking to enhance their leadership skills and build high-performing teams.

3 Startup & VC Advisory

- Technical due diligence for VC firms and investors
- Evaluating startup technology stacks for scalability & risks
- Advising portfolio companies on technical strategy and execution
- Supporting M&A tech assessments

Who It's For: Investors, VCs, and startup founders looking for insights on technology risks, time-to-market improvements, and scaling strategies.

Engagement Models

- **One-Time Advisory Sessions** - Focused strategy calls for quick insights & guidance.
 - **Ongoing Consulting (Retainer)** - Long-term advisory to support continuous growth.
 - **Fractional CTO Services** - Hands-on leadership for early-stage teams.
